Introductory Note

We bring people and technology together. to foster confidence and provide long-lasting results. achieving long-lasting results that have an impact.

Tentro Funds Limited , champions the production of solar power and energy, electronical appliances, and real estate management.

The holdings significantly affect positively, to New Zealand gross domestic products (GDP).

Well-designed
elements are crucial for
business success

Global expenditure on construction activities was about \$ 350 million in 2012. Today, expenditure on the construction industry exceeds \$ 25 billion a year, equivalent to about 13 percent of global GDP.

About Company

However, Tentro Funds Limited industry promotes economic development and brings many monetary benefits to many countries, it also creates room and opportunities by the introduction of investment and profits earning since the year 2017. The introduction of this project has yielded major work boost and profits in the country

Tentro Fund Limited started with the construction of buildings and by July 1998, the holdings have established almost 7,560 buildings around Europe. This led to an increase in Gross domestic product making the holdings worth around 6.9 million dollars as of 2000.

After the introduction of kinetic energy and solar power panels in the year 2002, the exploration of electronic materials and power supply galvanized and gathered attraction from around the globe and mostly in European unions where there was low supply of electronics and solar powers.

Today Tentro Fund Limited have become a major production company in construction, solar power, real estate and Solar. And with these history Tentro Fund Limited boast a major investment opportunities for individuals and investors with low income budget.
